# Tangible & Actionable Value Adds For Business Leaders

1. How can I extract important information related to R&D from various structured, unstructured, public & private sources and bring it on a single, seamless platform?

2. Can I get all my existing varied technology tools, data sources, databases & resources on a unified data platform?

Our Technology Expertise -

- Operational Systems – Legacy DB, SQL, Oracle, DB2, Sybase
- DWH & Data Lakes – Databricks, Redshift, S3
- Cloud Environments – Azure, AWS, GCP, Hybrid
- CRMs/ ERPs – Salesforce, Hubspot, Hana/R3, Oracle, Infor
- Visualization Tools – PowerBI, Tableau, QlikView, Birst, Sisense
